**APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit, to change the manner of use of a portion of the waters of an underground source as heretofore granted under Permit 65061, is issued subject to the terms and conditions imposed in said Permit 65061 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 65060, 65061, 65062, 65063, 65064, 65065, 65066, 65067, 65068, 65069, 65070, 65071, and temporary Permit 89329T shall not exceed 2,740 acre-feet annually.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This temporary permit is issued subject to the State Engineer's Ruling 5747 issued on June 27, 2007.

(Continued on Page 2)

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **not to exceed 0.003 cubic feet per second and 1.2 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

N/A

Map in support of proof of beneficial use shall be filed on or before:

13. Estimated time required to construct works One (1) Year

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use One (1) Year - Temp. Application

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This application proposes to allow water from TRI General Improvement District wells to be diverted into water trucks to fill a portable 7,500 gallon tank to water wild horse. This effort is intended to divert wild horses away from the USA Parkway water pond. Water sources will be developed away from main roads. This application is based on estimated weekly truck and tank fill over the next year; herd size of the Virginia Range wild horse is unknown.

16. Miscellaneous remarks:

This application is in support of an approved wild horse feeding plan by Blockchains, LLC who and will maintain a truck fill record to track water volume beneficially used under this application.
